APP Disruptive Technology Lunch Series

DOCTUS

Introduction

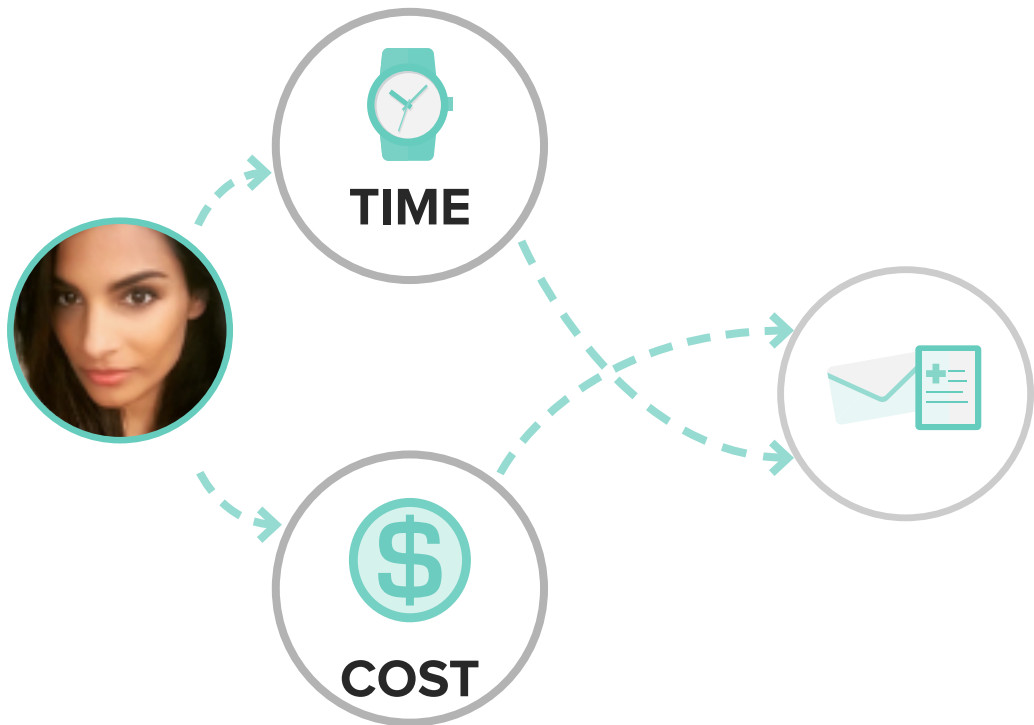

1. The State of the Nation
2. Who We Are, What We Offer
3. What's in it for You?

The problem with Australian healthcare

INDIVIDUAL

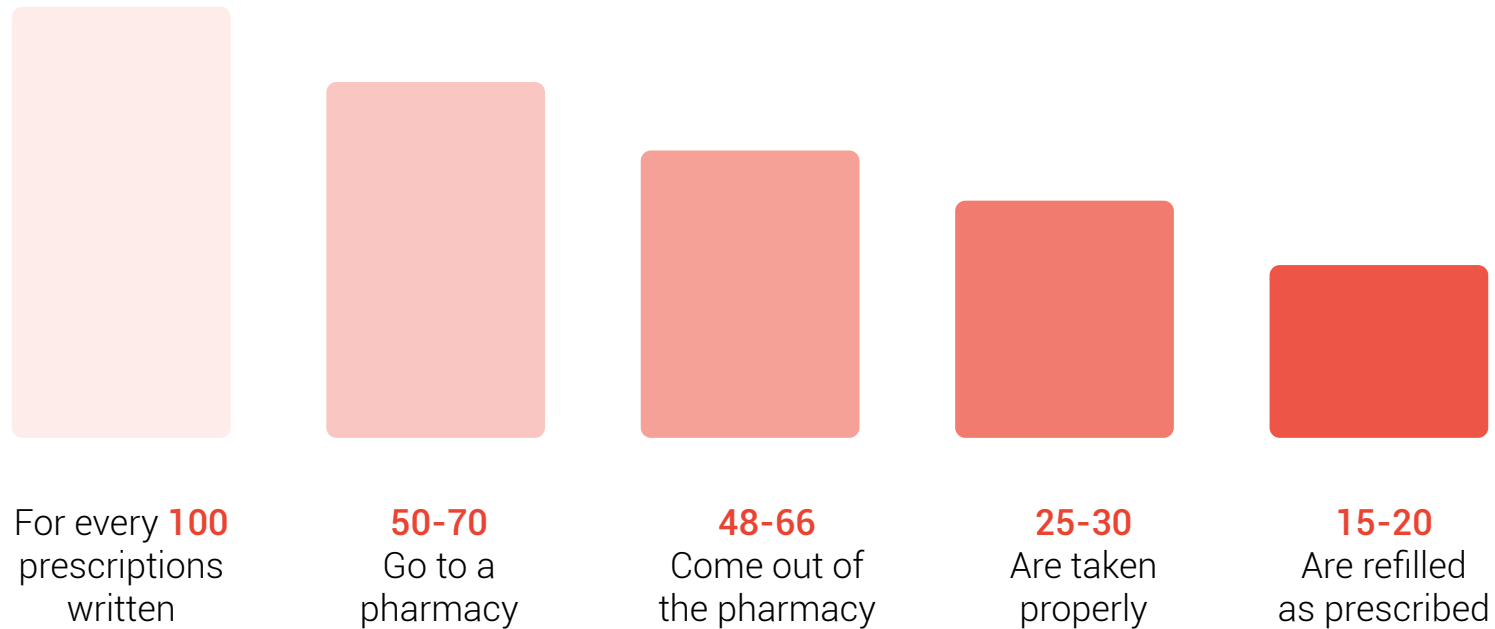

COMMUNITY

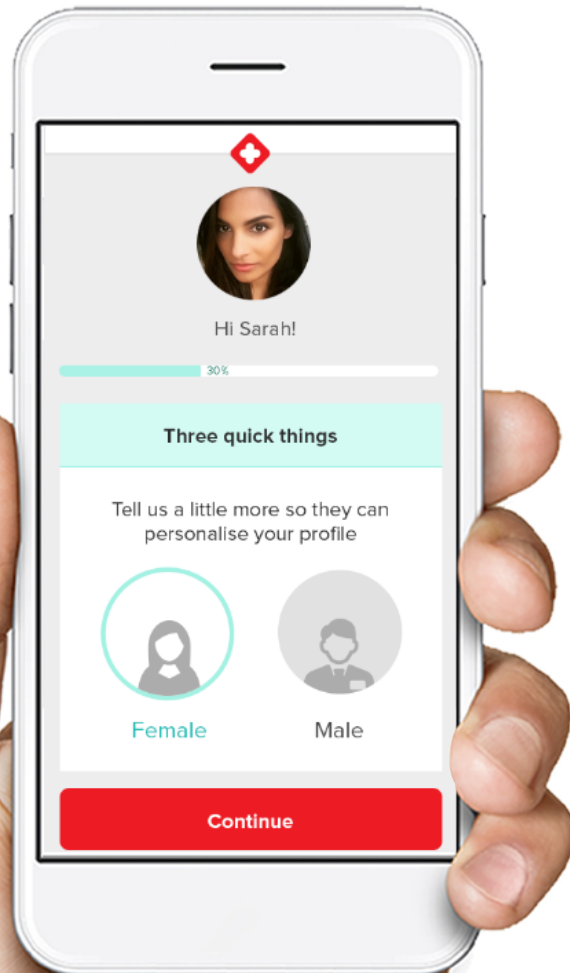

\$155b

Total healthcare expenditure was 10% of the GDP.

50-60% of medication is taken correctly

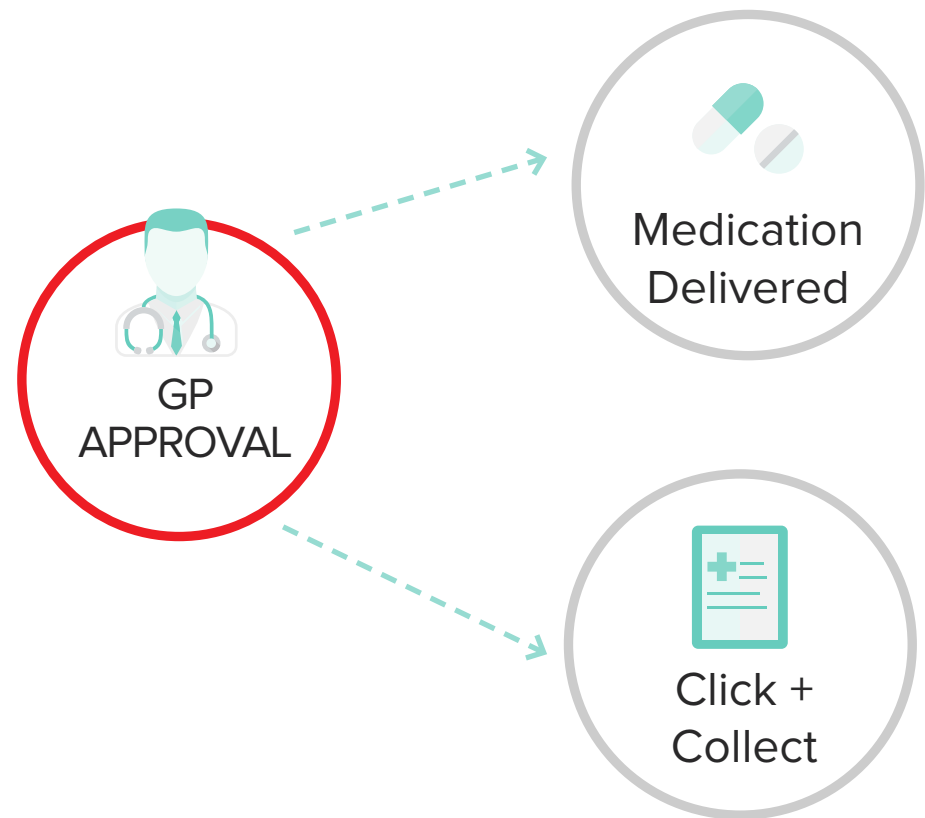

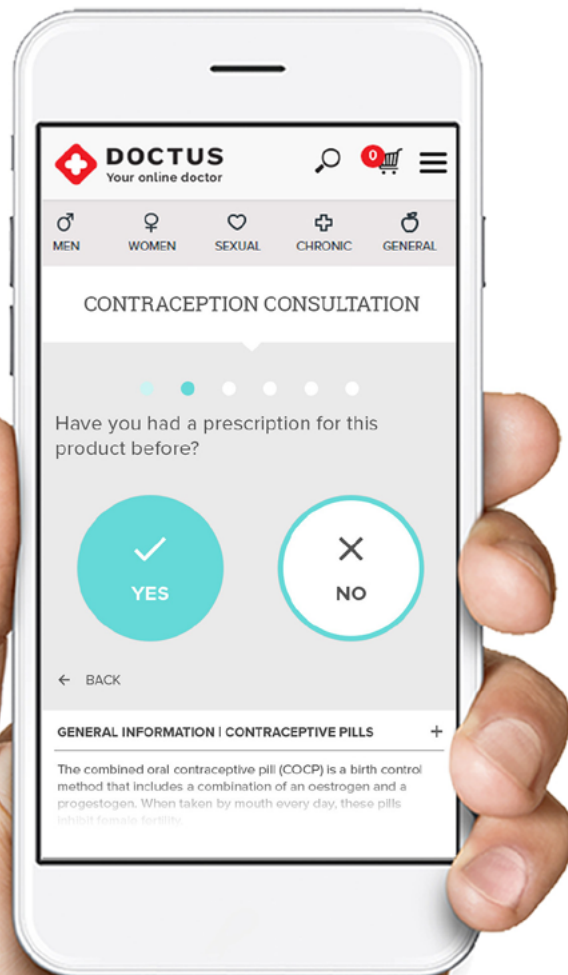

The solution?

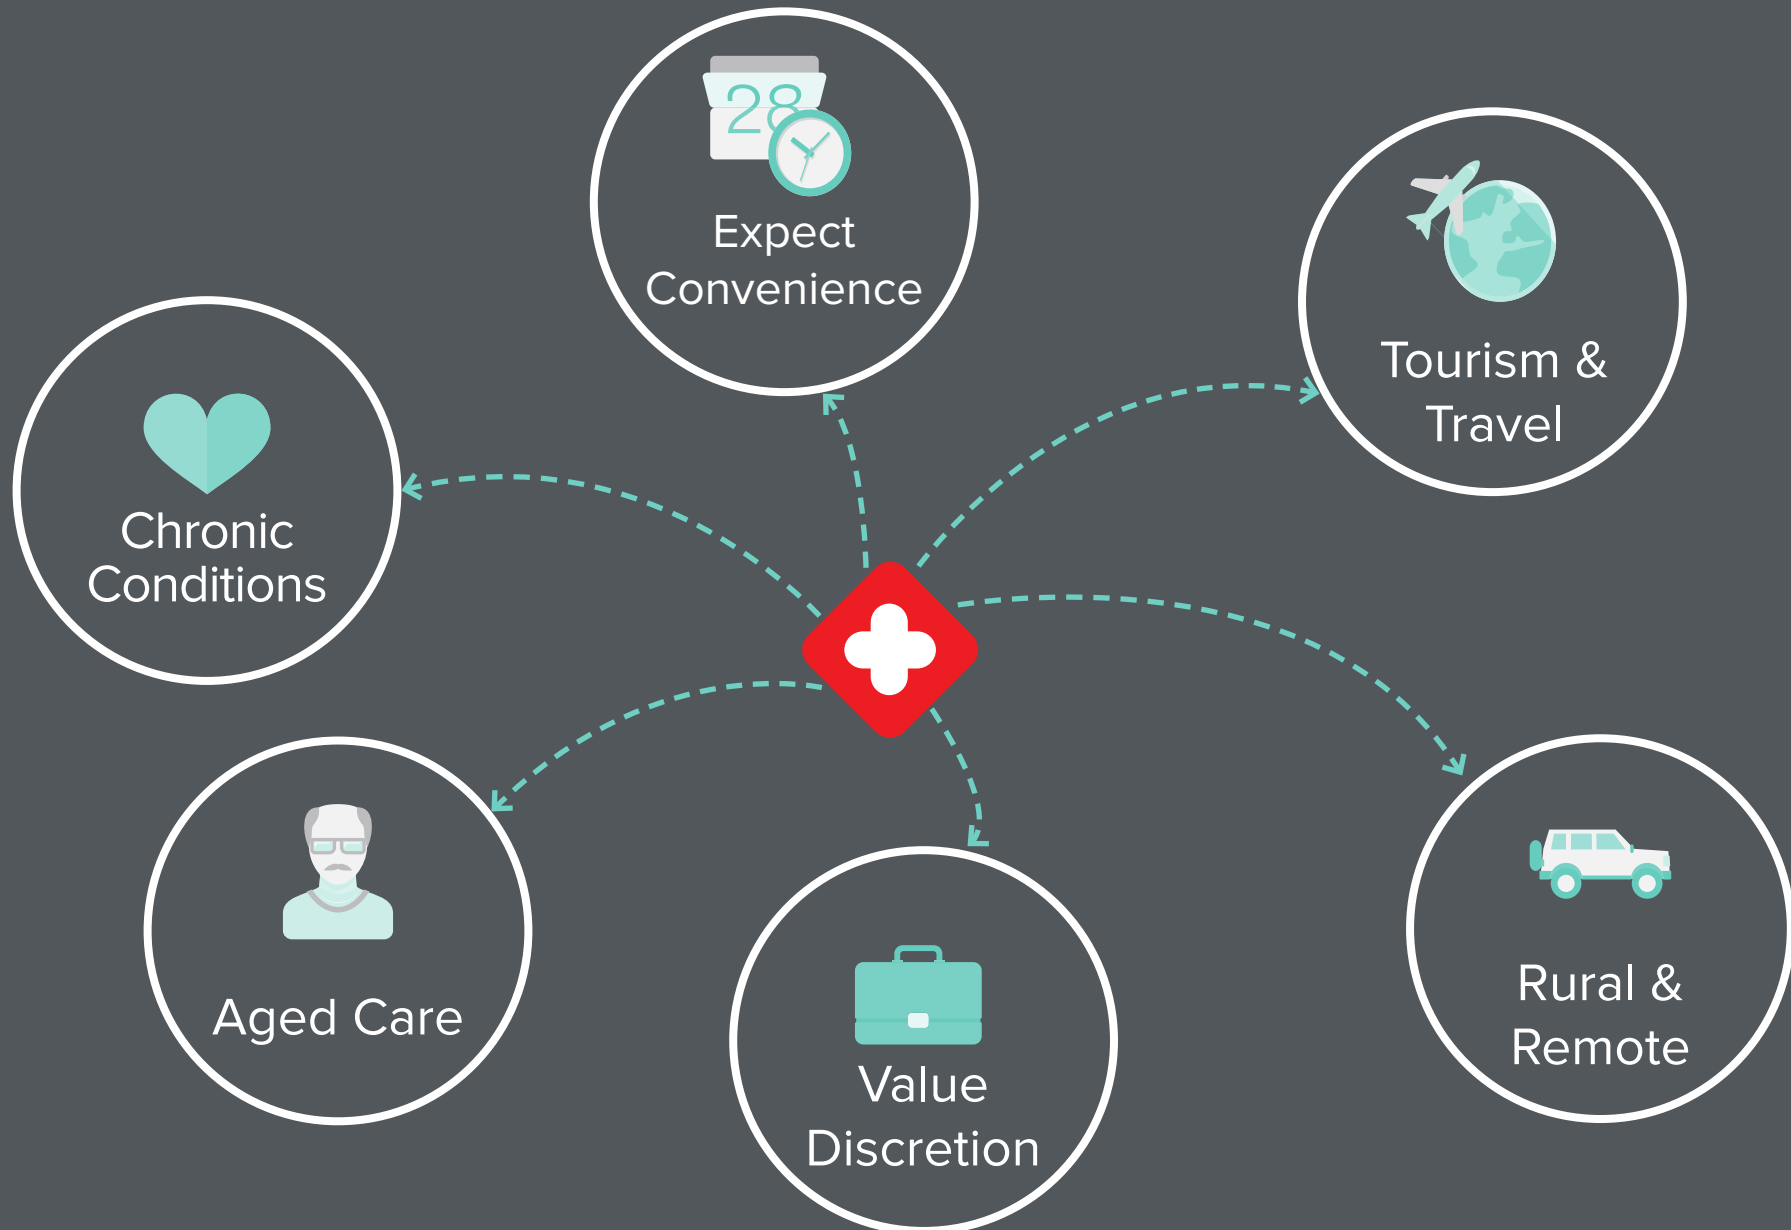

Keep it simple.

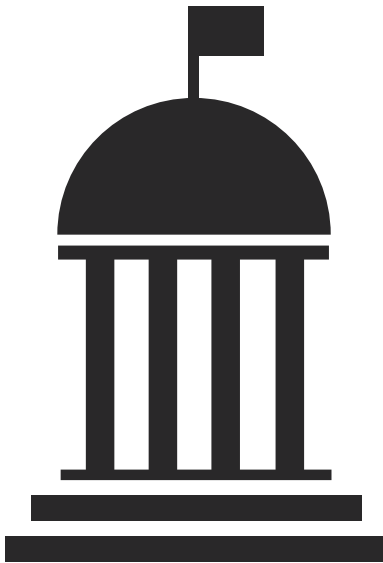

Bring healthcare into 2016...

...Which is exactly where you'll find our customer

Change is happening

PUSHED
by institutions

PULLED
by consumers

But Australia needs to catch up

Medgate (Europe)

4k+ patients/day
15+ years

Healthtap (USA)

100 million users
70,000 doctors

The time is now

“The telemedicine market in Australia is expected to record a CAGR of 43.5% from 2015 to 2019”

Frost & Sullivan 2015 GIL Australia:
Telehealth to Take Centre Stage in Australia's Healthcare System
